

Dream – Your growth is for the Body

Dream: I am in a war, in "our camp", I see enemy soldiers sneaking in, no one else sees them. A few people are standing around a table in a field, on the other side of the table is a screen. An enemy is hiding behind screen and has a rifle pointed through screen to attack. I go on my back on ground and grab rifle, we struggle but I manage to turn rifle around and shoot enemy in the stomach. He is taken to hospital and I chase behind in a car. In the parking lot of the hospital lays a big rifle, I jump out, leave my smaller rifle, grab the big rifle, get back in the car and head back to battle field. I realise I could abandon my people and just flee, but I decide to rather go around the battle field and attack the enemy from behind, surprising them.

Interpretation: In the "battle" we get trained up by the Holy Spirit, He gives us discernment and teaches us how to overpower and defeat the enemy in His strength. All of this is to strengthen us and grow us to be useful to the Body of Christ. The anointing, the strength, the growth, the new levels of authority, all of it must be used to serve the Christ and His Bride. If we choose to "runaway" from that, to be loners looking out for only ourselves, God will still love us and grow us and change us to become who we must be in time, but not nearly as much as if we embrace His Church and the work He has for us in it. And if you focus on His battles, He will teach you new things, and use you in ways you never thought possible. This is HisStory and we as Christians are there to be part of His Body, do not run from it my friends, embrace it.

Love in Christ
